COMMUNITY CONTAINMENT

Present: Margo Erme, Melanie Campbell, Vaughn Anderson, Tim Adams, Sarah Metzger, Bruce Shade, Lynn__ (Salem Hospital); Kathy Aven, Pat Patterson, Liz Deham, Kathy Coleman

- Minutes were reviewed and approved.
- Recap of multi-disciplinary involvement. Safety forces and EMAs will not want to participate unless they need to, and since Public Health is required to address this in their grant deliverables, these efforts will be Public Health-driven, although multi-disciplinary involvement is strongly encouraged.
- Confirmed the group's plan to develop a local template for the counties in the region to use (if they choose to do so), and then have the Plan Review group look at it in terms of a regional plan or regional coordination of local plans.
- Reviewed the Summit County annex and discussed the Holmes County Health Department's plan. Using the Holmes County plan may be a better option for developing the template since it's health department specific, rather than part of a county plan. Vaughn will send the Holmes County document to Tim, who will send it out to the group.
- Melanie updated the group on the Carroll County exercise on May 16th. The morning session will be a multi-discipline workshop on community containment which will be open to the region, with a tabletop in the afternoon for Carroll County's local partners. The morning session will start at 9:00; the afternoon session will start at 1:00. Tim will be sending an announcement out to the region.
- Next meeting will be at 9:30 on May 20 at ARHA.
